*In a lot of ways, Lieutenant Commander Bortus is a lot like every other Moclan you've ever met. Inscrutable. Proudful, more than just a little bit headstrong. He doesn't seem to have much of a problem side-stepping the chain of command at times, either, if he feels like Moclan law ought to trump Union fleet regs in an issue.*

*Unlike most Moclans, though, he seems to be capable of learning behavior. He's willing to admit, at least sometimes, that he's wrong about something and change the way he behaves accordingly. He adapts, quickly by Moclan standards. He's also an extremely versatile officer, able to take on almost any bridge station in a pinch.*
